

STANDARD CLOTH COLORS

Standard cloth colors are available in F grade Poly/Cotton material for Periodicals and Thesis. We choose the color for Monographs.

STANDARD LETTERING STYLES

Working from the binding slips our customers provide, we generate binding stamping information using the Library Automated Retrieval System (LARS) on our Windows NT network. We offer two type styles in horizontal type, 18 and 14 point, and 14 point vertical type for narrow volumes or overly long hard to fit titles.

The samples below show the type styles & sizes. Covers may be stamped with black, white, or gold lettering.
